

# GreenLand™

GreenLand™ Solar Power Box is unique solar DC power solution for off-road travellers, bush lodges, camping site or rural house power supply that in need of temporary or permanent reliable power supply.

Every GreenLand Solar Box™ will provide you with reliable power output in following DC voltage and current:

## 5A All in ONE Solar Power Box.

5A GreenLand Solar Box™ build in  
and INCLUDE:

- ❖ 5A solar charge controller to handle up to 65W solar PV panel (50W solar panel recommended)
- ❖ 20A solar GEL deep cycle maintenance free battery,
- ❖ 2 x 5 VDC USB terminals – to charge mobile phones and USB selective cable set,
- ❖ 1 x 6 VDC socket– to play 6 VDC radio or other 6 VDC powered electrical appliances with 4m cable,
- ❖ 1 x 9 VDC socket – to play 9 VDC radio or other 9 DCV powered electrical appliances with 4m cable,
- ❖ 4 x 12 VDC sockets – to run 12 or 24VDC LED lights appliance,
- ❖ 4 x 5m cables with light fittings,
- ❖ 1 x 4m battery cable with battery lugs,
- ❖ 2 x 4m radio connection with socket,
- ❖ 1 x 6m solar PANEL connection cable with socket,
- ❖ OPTIONAL: PV panel sizes from 20 to 65W
- ❖ OPTIONAL: 4 x 5W high power LED bulbs

For more info please contact us:

# GreenLand™

## 10A All in ONE Solar Power Box.

- ❖ 10A GreenLand Solar Box™ build in and INCLUDE:
- ❖ 2 x 5 VDC USB terminals – to charge mobile phones,
- ❖ 1 x 6 VDC socket– to play 6 VDC radio or other 6 VDC powered electrical appliances,
- ❖ 1 x 9 VDC socket – to play 9 VDC radio or other 9 DCV powered electrical appliances,
- ❖ 4 x 12 VDC sockets– to run 12 or 24VDC LED lights appliance,
- ❖ 1 x 19 VDC socket– to play any DC powered TV's or charge any laptop model,
- ❖ 12VDC powered Laptop charging kit,
- ❖ 1 x 12 VDC socket – to play 12/24V DC TV or FAN,
- ❖ 1 x 12 VDC cigarette lighter socket – to charge mobile phones with car mobile phone charger.
- ❖ 4 x 5m cables with light fittings,
- ❖ 4 x 5W high power LED bulbs
- ❖ 1 x 4m battery cable with battery lugs,
- ❖ 1 x 6m solar cable with socket,
- ❖ OPTIONAL: PV panel sizes to connect from 50W to 250W
- ❖ OPTIONAL: 4 x 5W high power LED bulbs
- ❖ 10A Solar Box has an Automatic DC voltage recognition function between 12V/24V PV input and 12V/24V battery, constant voltage and current outputs make Greenland™ Solar Box preferable in any application where you need reliable DC power supply.

- ❖ 12V powered Laptop charging kit,
- ❖ 1 x 12 VDC socket – to play 12/24V DC TV or FAN,
- ❖ 1 x 12 VDC cigarette lighter socket – to charge mobile phones with car mobile phone charger.
- ❖ 6 x 5m cables with light fittings,
- ❖ 6 x 5W high power LED bulbs
- ❖ 2 x 4m battery cable with battery lugs,
- ❖ 2 x 10m solar cable with socket,
- ❖ OPTIONAL: PV panel sizes to connect from 50W to 500W
- ❖ OPTIONAL : Solar gel battery 50-400A
- ❖ OPTIONAL: 4 x 5W high power LED bulbs
  
- ❖ 20A Solar Box has an Automatic DC voltage recognition function between 12V/24V PV input and 12V/24V battery, constant voltage and current outputs make Greenland™ Solar Box preferable in any application where you need reliable DC power supply.
  
- ❖ Manual change over between 12 and 24V light output to run various 12 or 24V DC light bulbs or other DC appliances,

**Green Land™ - Bright future in your hands**
